

UNIT FOR LABORATORY ANIMAL MEDICINE
PATHOLOGY RESEARCH SERVICES REQUEST

Instructions: Contact Amanda Pilling via-e-mail: pilling@umich.edu, or phone 647-0731 to initiate pathology services.. Complete this form and fax it back to Amanda at 936-3235

Principal Investigator: _____ Date: _____

Department: _____

Office Ph: _____ Fax: _____ e-mail: _____

Shortcode: _____ Cancer Center Member?: Y/N

Other Laboratory Contacts: _____

e-mail reports to: _____

Lab location (Building & Room #): _____

Animal Housing Location: _____

Species: _____ Strain: _____

Are the animals transgenic?: _____ knockout? _____

If so, please complete
Request for Pathology
Analysis of Mutant Animals

Primary objective of the study and what role you expect pathology to add to the study¹

Services requested from ULAM: Necropsy _____ Histopathology _____ Special Stains (specify) _____

Clinical chemistry: _____ Immunohistochemistry: _____

Special procedures² _____

Photodocumentation: Gross: _____ Histopathology: _____

Other²: _____

Is this a pilot study or part of a large study? _____ If pilot study, do you anticipate future studies? _____

Expected length of study? _____ Total animals involved? _____

Will the animals be sacrificed on a schedule or as they become available/sick/moribund? _____

Will you need any tissues returned to you or others (for small fee) either fresh, frozen, or fixed? _____

Are you seeking a veterinary pathologist collaborator? ³ _____

Do you anticipate pathology being a part of any future publications and/or grants? _____

¹. Please provide any reprints from previous studies. If reprints are not available, please provide references or specific aims and abstracts from relevant grant applications.

². Please specify: (e.g. ultrastructural analysis, cytochemistry, ELISA's, perfusion, etc)

³. If this is a large study, and/or special procedures are requested, and/or the Principal Investigator is interested in collaboration, please contact Dr. J. Erby Wilkinson at jerby@umich.edu or phone 936-1702.
